

Like visiting Central Florida? How would you like to LIVE here?

JLR Medical Group, the largest anesthesia group in Central Florida with practices in anesthesia, Pain and Critical Care, seeks two (2) critical care medicine fellowship trained anesthesiologists to compliment our three similarly trained physicians currently on staff.

Applicants should have completed a critical care fellowship or to have been grandfathered in with a special qualification certificate by the American Board of Anesthesiology

We are procedurally active, placing arterial lines, central venous and pulmonary artery catheters, thoracentesis, paracentesis and chest tubes, as well as other procedures as needed in the medical surgical, cardiovascular and neurologic ICUs. Each member performs anesthesia and critical care medicine on separate rotations.

JLR Critical Care physicians serve as medical directors of the ICU, Ventilator Support Unit and the Oncology Progressive Care Unit.

If you would like to visit our facilities during your stay, please contact Carl D. Michael, CEO at (407) 667-0444 extension 145

If you are interested in a position with JLR please forward your
